## A PREDICTABLE WAY TO KEEP PRODUCTIVITY HIGH AND PC REPAIR BUDGETS UNDER CONTROL.

LENOVO THINKPAD PROTECTION, THE ULTIMATE PROTECTION FOR THE ULTIMATE BUSINESS TOOL.

### PEACE OF MIND THAT GOES BEYOND SYSTEM WARRANTY

The unexpected can happen. Even to exceptionally engineered PCs. Lenovo ThinkPad Protection gives you complete peace of mind by ensuring your IT budget is sound, your employees stay productive and can work with confidence anywhere their work takes them.

Organisations with a highly mobile workforce are more likely to experience greater PC wear and tear. In fact, our repair data indicates that 16% of corporate mobile users will experience damage not covered by the base manufacturer's warranty. Lenovo ThinkPad Protection goes beyond the system warranty, and provides coverage for minor drops, liquid spills, and more.

ThinkPad Protection is carried out by Lenovo trained technicians in Lenovo repair centers using advanced diagnostic tools, so notebook owners can be assured their PC will be repaired right the first time. If the system is damaged beyond repair, Lenovo will replace the entire unit (terms and conditions apply).

### EFFECTIVE BUDGETING ENHANCED PRODUCTIVITY

The cost for repairs can quickly add up, especially with highly mobile professionals. By purchasing ThinkPad Protection now, you can protect your mobile PCs and avoid the hassles and budget implications of paying for unplanned system repairs. In other words, you just make a single initial investment to fit your budget. Depending on the number of systems covered over the life of your installed base, you could save significantly on unplanned repair expenses and hours of unplanned downtime. You'll also maintain a happier workforce, as issues will be fixed correctly the first time. The repairs are done by experts with the right tools to fix the problem. ThinkPad Protection keeps users' downtime to a minimum.

More importantly, unless damaged beyond repair, the users will get their own machine back in the fastest possible turnaround time.

### WHY THINKPAD NOTEBOOKS NEED THINKPAD PROTECTION

ThinkPad notebooks come with the legendary quality and performance of Think-branded PCs. They are engineered to military specifications and have the best functionality, reliability and usability features in the industry.

The ThinkPad notebook's roll cage design helps protect its inner components, so it can withstand the most rigorous usage. But even then, unexpected drops, spills or bumps can occur. ThinkPad Protection helps repair your PC quickly, getting you and your PC back to work.

**WHO DO.**

## WHY THINKPAD PROTECTION?

Here are some factors to consider:

- ThinkPad Protection lowers the notebook's Total Cost of Ownership by extending its life and protecting your investment
- Based on a sample of Lenovo claims, our customers save, on average, 28% with ThinkPad Protection versus the cost of repair
- IT Departments don't have to purchase and manage spare inventory to fix damaged PCs
- Lenovo's comprehensive diagnostic tools can identify hidden damage that may have otherwise gone untreated
- International repair centers with in-country language support, ensures you have coverage when and where you need it
- Lenovo's repair depots repair and return your PC quickly and conveniently
- Unless damaged beyond repair, each user's own PC is returned to them when repaired
- By covering Lenovo notebooks with Lenovo ThinkPad Protection service, your upfront investment is less than 1/10<sup>th</sup> the cost of a typical repair

### TYPICAL REPLACEMENT COSTS FOR COMMONLY DAMAGED COMPONENTS

System Planar	up to \$1,300
DVD Drive	\$300
Display	\$502
Hard Disk Drive	\$194

#### WHAT'S COVERED?

- LCD screen failure

#### WHAT'S NOT COVERED?

- Cosmetic damage and damage from intentional misuse
- Damage due to unsuitable operating environment or improper maintenance
- Theft or loss
- External peripherals, consumable parts (i.e. batteries), removal or alteration of parts, accessories, keyboards, mice, printers, scanners and stylus
- Third-party products (even if sold by Lenovo)

## HOW TO ACCESS THE THINKPAD PROTECTION SERVICE

To enable the service that you are entitled to, ensure that the ThinkPlus service pack you have bought has been activated - registered online within 30 days after purchase. The registration status of the service product can be then verified on the support web page.

If you have registered ThinkPad Protection service on your notebook and the machine gets damaged just mail the notebook to a repair depot or carry the notebook in to a Lenovo Authorized Warranty Service Provider to have the PC serviced. Our repair facilities are fully equipped with the right tools and test equipment necessary to diagnose the full extent of the damage and ensure the PC is properly repaired per the terms of the Protection Services Agreement. That is why the ThinkPad Protection service cannot be provided onsite or next business day, even if you have an onsite warranty service.
